

Grammar: Comparison of adjectives II

Na prošlom kursu smo obnovili poređenje prideva. U suštini, ako je pridev kratak za komparativ dodjemo pridevu *-er*, a za superlativ *-est*. Kod dugačkih prideva za komparativ dodajemo reč *more (ili less)* ispred prideva, odnosno *the most (ili the least)* ispred prideva. Recimo: ***This is the smallest gadget that we produce but it is the most expensive.***

Ukoliko želiš da uporediš dve stvari koje su slične ili iste, korišćeš konstrukciju **as + adjective + as**, odnosno **not as + adjective + as**.

Na primer: **Our product is as useful as our competitor's.**
Their product is not as energy effective as ours.

Pokušaj sada da rešiš ove primere:

1. ***Our batteries are (durable) as Duracell.***
2. ***Our brochure is (informative) as a google search.***
3. ***My team is (productive) as yours.***
4. ***My solution is (sophisticated) as Brian/s.***
5. ***Farming in Serbia isn't (sustainable) as in Norway.***

U svakoj rečenici dodao si *as* i pridev iz zagrade, vrlo jednostavno, zar ne?

Ukoliko sada želiš da kažeš da je nešto previše, korišćeš *too*, ili dovoljno, koristeći *enough*, rečenica bi mogla da izgleda ovako:

Our sales are good enough this year.
The spare parts are too expensive this year.

Kao što vidiš *enough* ide posle prideva dok *too* koristimo ispred.

Hajde da vežbamo. Zaustavi video, razmisli i dodaj *too* ili *enough*, a onda ga opet pokreni da proveriš svoje odgovore.

1. The new material isversatile to be used in production.
(enough)
2. Our ad is outstanding to be easily noticed.
(enough)
3. Our sales reports are good.... to be true.
(too)
4. The new boss is demanding....
(too)
5. The presentation wasn't elaborate.... (enough)

Evo odgovora:

1. The new material is versatile enough to be used in production.
2. Our ad is outstanding enough to be easily noticed.
3. Our sales reports are too good to be true.
4. The new boss is too demanding.
5. The presentation wasn't elaborate enough.

Na ovom linku naći ćeš dodatna vežbanja, pa provežbaj pre nego što uradiš kviz:
